

Sunshine, Smiles, and The Mersey: A Cruise To Remember

Brothers, Family and Friends of Ormskirk Circle set sail for an afternoon of joy, unity, purpose and music. The Mersey carried more than a boat; it carried a community.

A warm summer breeze, cheerful tunes, and joyful laughter filled the air on the afternoon of 19th July as Ormskirk circle brothers set sail for a two-hour cruise along the scenic River Mersey. With the sun glistening on the water and a vibrant atmosphere onboard, it was an afternoon of connection, celebration, and community spirit.

The cruise brought together friends and family, in a relaxed setting, offering a well-deserved moment of fun and reflection. As the boat gently drifted past Liverpool's iconic waterfront, guests enjoyed a soundtrack of 'uplifting' music, with many taking to the deck to dance or simply soak in the views.

"It was wonderful to see so many familiar and new faces enjoying themselves," said the Circle President. "The weather couldn't have been better, and the atmosphere was full of positive energy.", added Brother Bob.

The River Mersey cruise was more than just a pleasant afternoon, it was a reminder of the power of togetherness, gratitude, and shared purpose. As the boat returned to shore, the message was clear: the Catenian's impact is not just in its works and name, but in the joyful community it creates along the way.
